

I need you to make a new Infobox about groups, OK?

I'll leave this code

```
<infobox>

    <title source="title"><default>"Unknown"</default></title>

    <image source="image"/>

    <data source="imagecaption"><label>imagecaption</label></data>

    <data source="weapons"><label>weapons</label><default>"Unknown"</default></data>

    <data source="armors"><label>armors</label><default>"Unknown"</default></data>

    <data source="artillery"><label>artillery</label><default>"Unknown"</default></data>

    <data source="allies"><label>allies</label></data>

    <data source="enemies"><label>enemies</label></data>

    <data source="members"><label>members</label></data>

    <data source="energy sources"><label>energy Sources</label></data>

    <data source="locations"><label>locations</label></data>

    <data source="spaceships"><label>spaceships</label></data>

    <data source="appearance"><label>appearance</label></data>

</infobox>

<noinclude>
```

== Usage & preview ==

Type in this:

```
<pre>

<<Infobox/Draft

|title=

|image=

|imagewidth=

|imagecaption=

|weapons=

|armors=

|artillery=
```

```
|allies=  
|enemies=  
|members=  
|energy sources=  
|locations=  
|spaceships=  
|appearance=  
>>
```

```
</pre>
```

to see this:

```
<<Infobox/Draft  
|title=This is a test  
|image=This is a test  
|imagewidth=This is a test  
|imagecaption=This is a test  
|weapons=This is a test  
|armors=This is a test  
|artillery=This is a test  
|allies=This is a test  
|enemies=This is a test  
|members=This is a test  
|energy sources=This is a test  
|locations=This is a test  
|spaceships=This is a test  
|appearance=This is a test  
>>
```

[[**fullurl:{{ns:Template}}:{{PAGENAME}}?action=purge** Click here to refresh the preview above]

</noinclude>

I've got a idea for the new Infobox like the groups.
