**Conversion of river basin action plans into
river basin management plans**

29 December 2014 – 29 December 2017

River basin protection action
plans

Meriç-Ergene

Susurluk

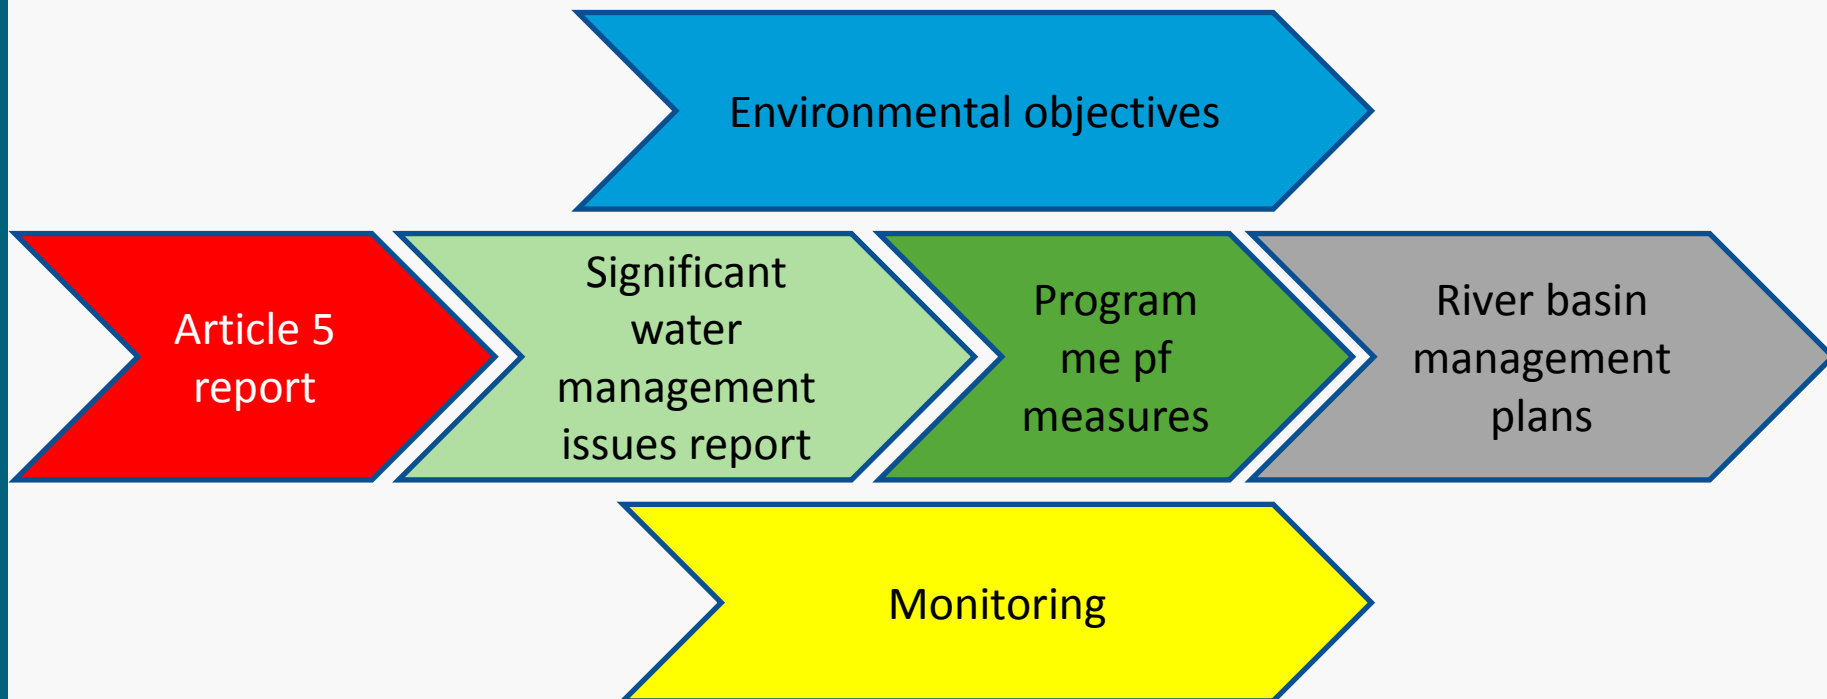

Büyük Menderes

Konya

EU River basin
management plans

Key characteristics of the project

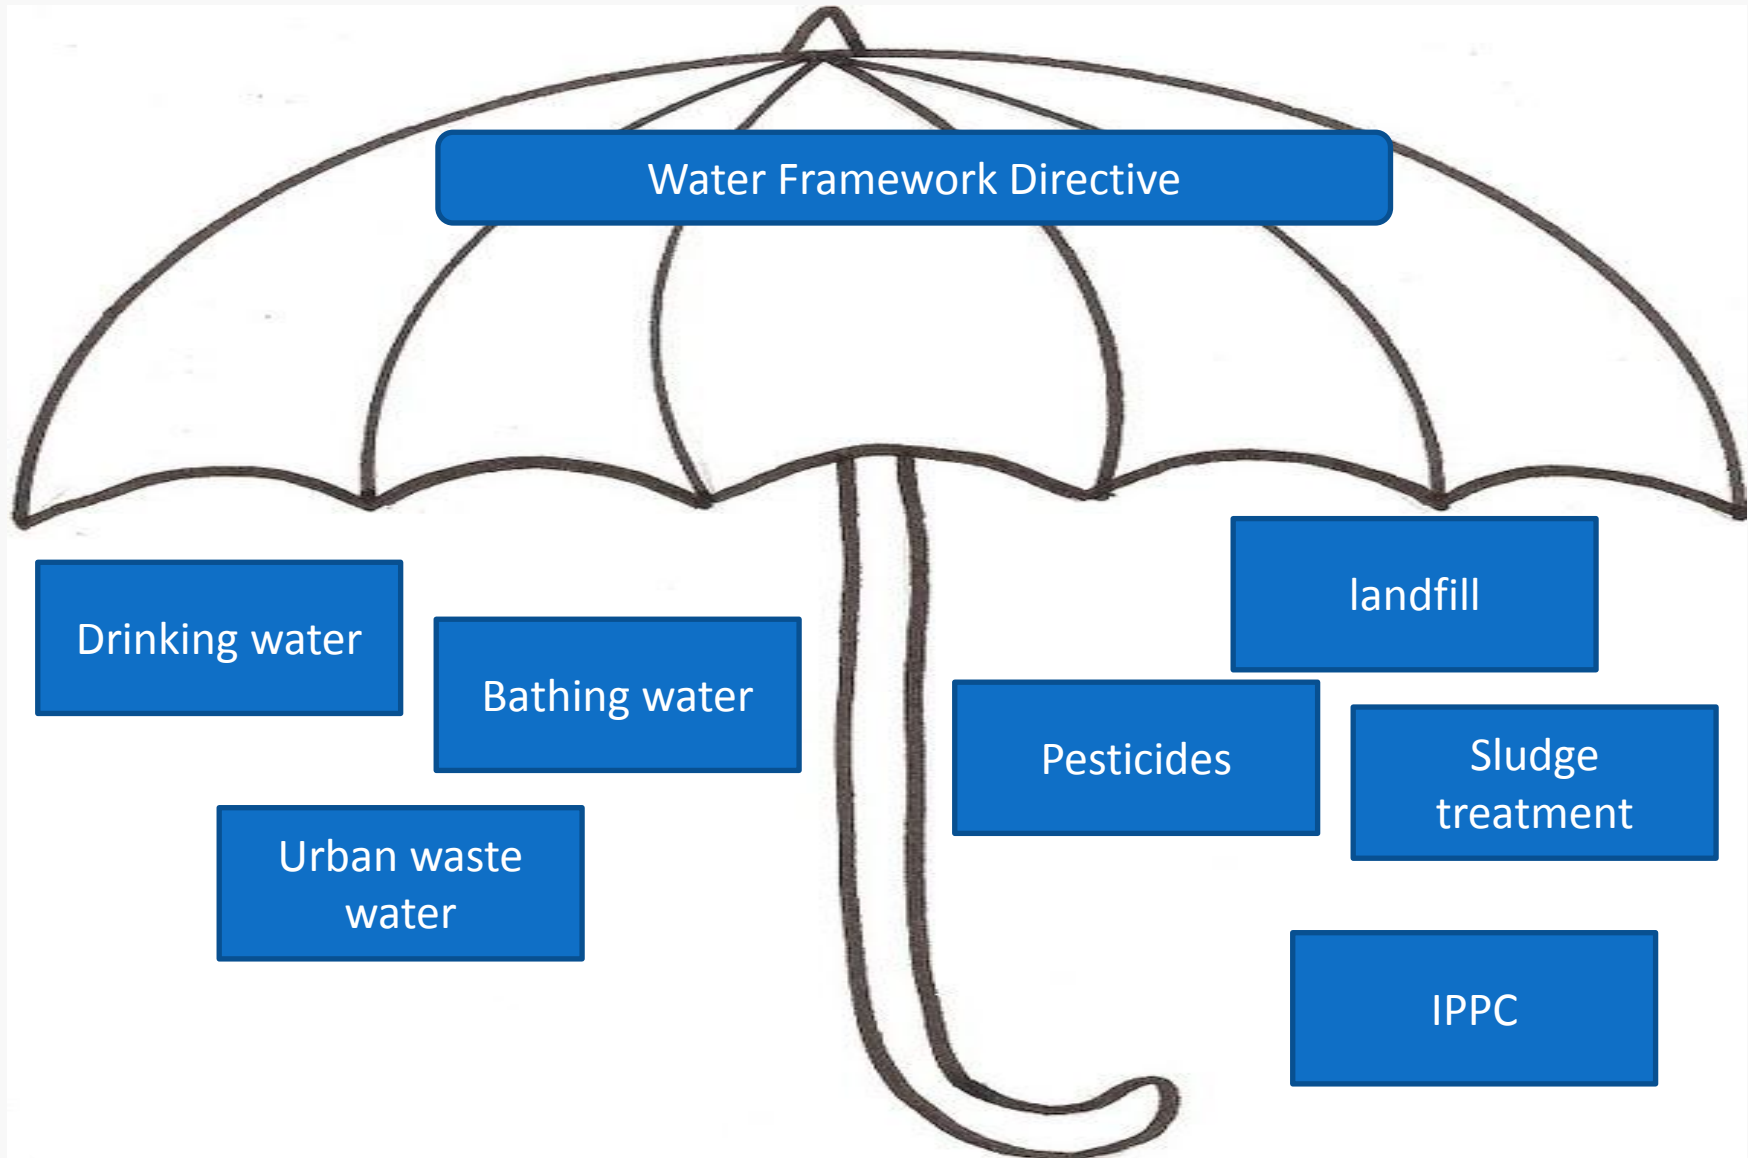

Key characteristics of the project

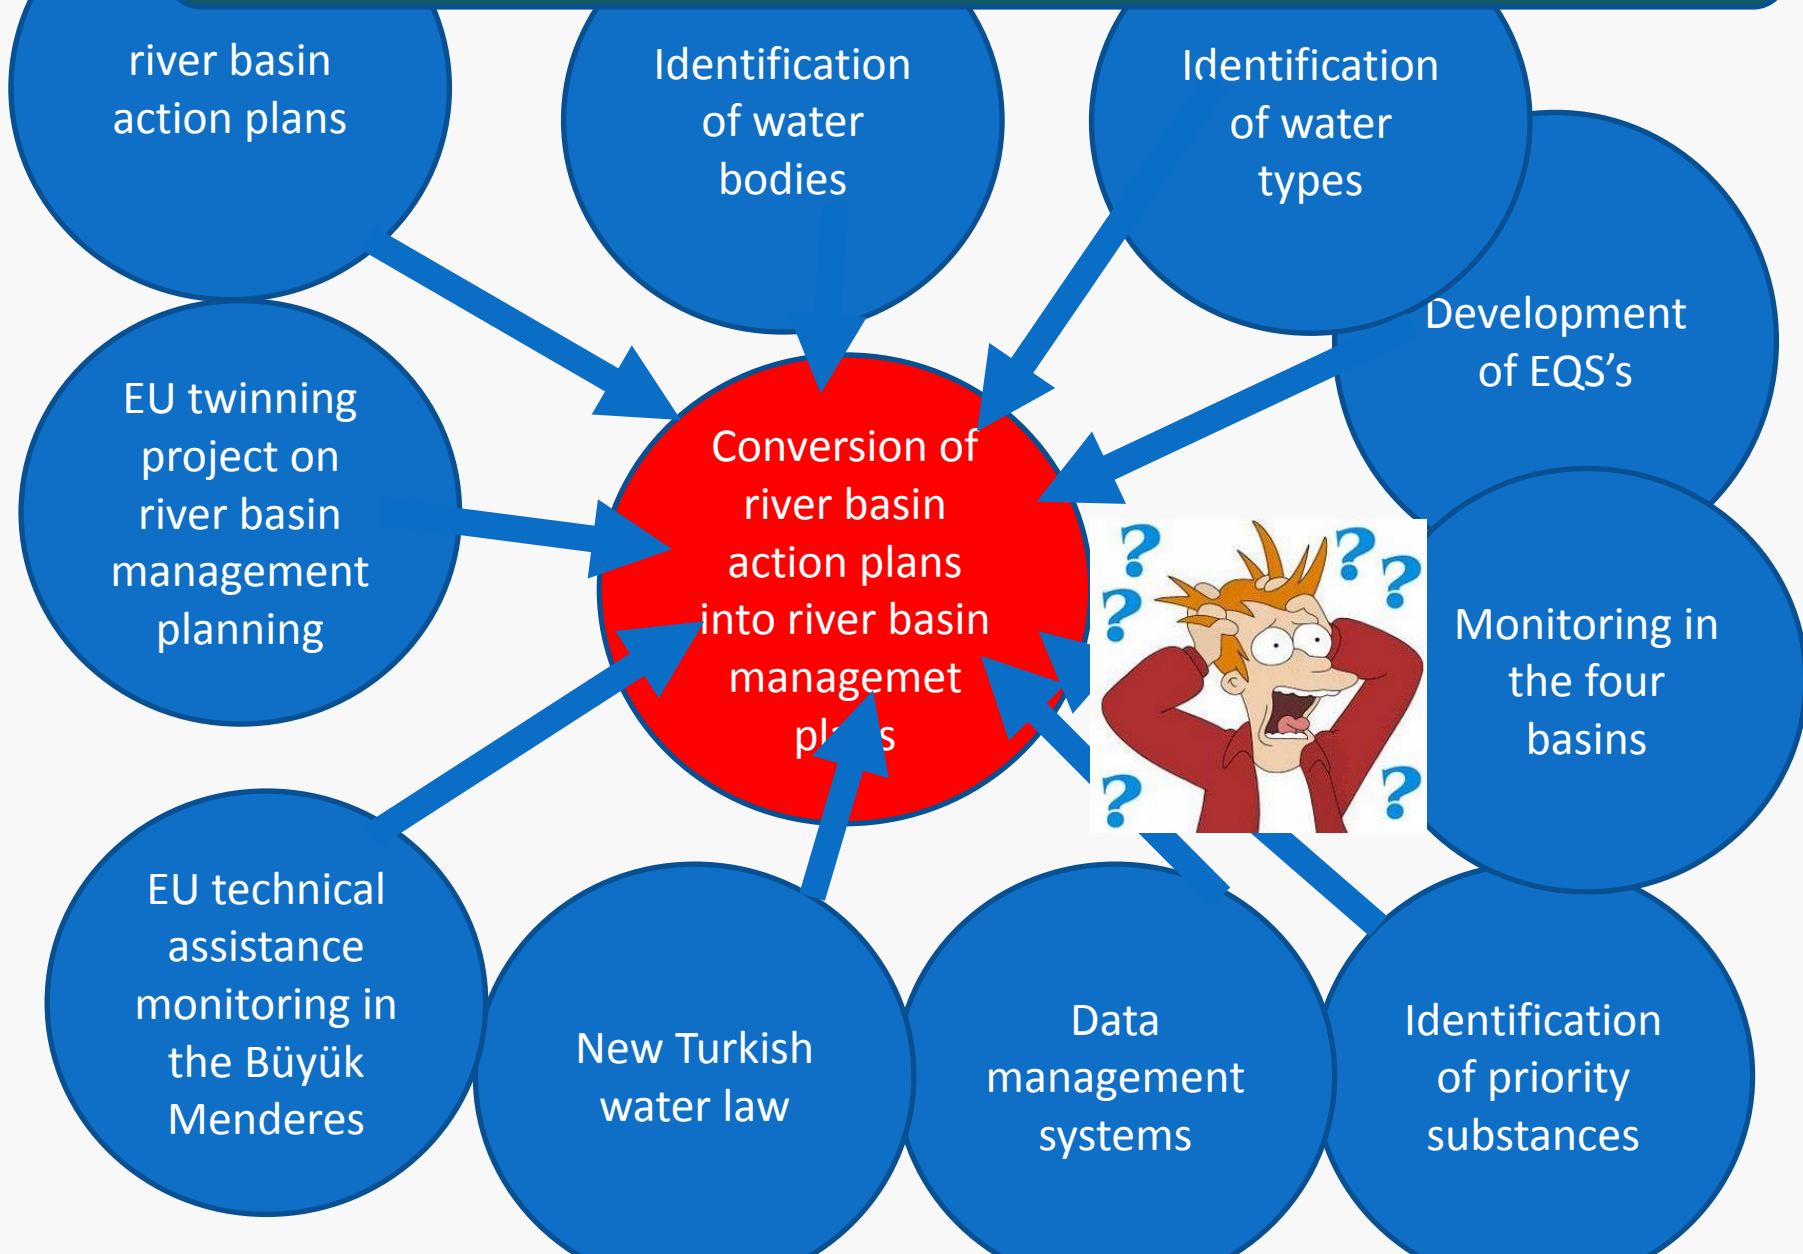

Groundwater,
lakes, rivers,
coastal and
transitional waters

Key characteristics of the project

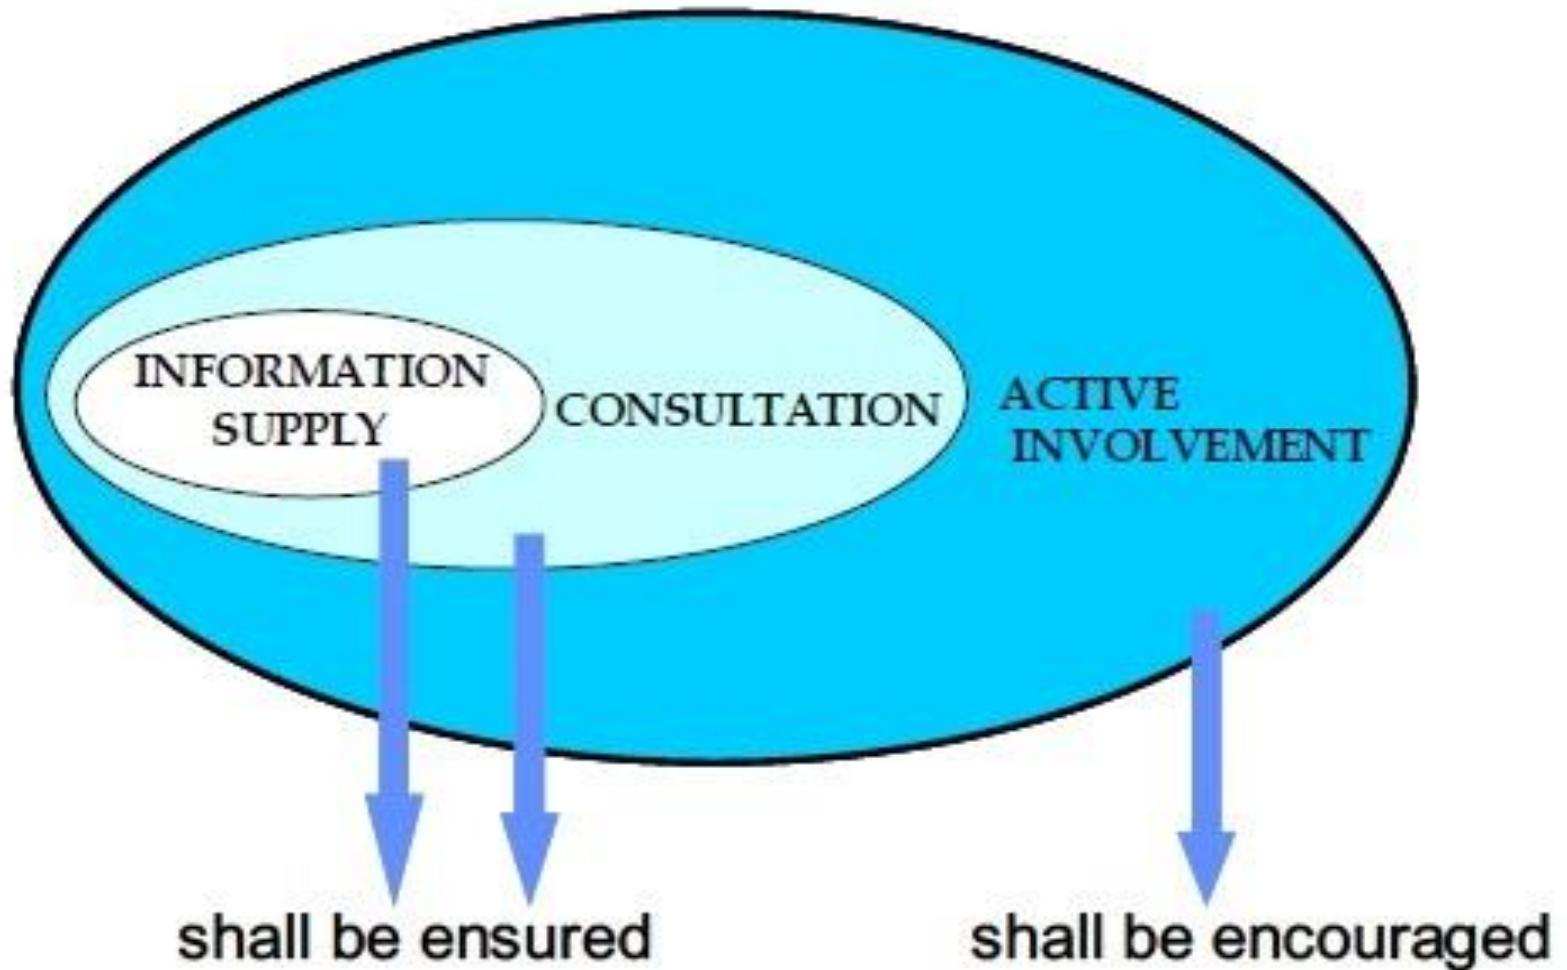

Key characteristics of the project

Key characteristics of the project

Key characteristics of the project

Component 1: Inception phase

Gap analysis between the plans

Actual state of the National Implementation plan for the Water Framework Directive

Establishment of working groups, appointment of river basin coordinators and trans boundary cooperation with Greece and Bulgaria

Kick-off meeting and awareness raising

Component 2: characterisation and significant water management issues

Characterisation report

Significant water management issues report

Public involvement

Training

Component 3: monitoring

Status classification of all water bodies in:

1. Susurluk
2. Konya
3. Meriç-Ergene

Biological monitoring

Chemical monitoring

Hydro morphological monitoring

Component 4: Programme of measures and conversion of the River Basin Protection Action Plans into River Basin Management Plans

Objectives

Cost-effectiveness analysis of measures

Exemptions and derogations

Public involvement

Training and guidelines and manuals

Component 5: Water Information Systems

Data Management System

GIS mapping

Decision Support system (Aquatool)

Training

Internships

Component 6: Update of the National Implementation Plan for the Water Framework Directive and Training Programmes

Update of the National Implementation Plan

Legal text for the transposition of the EU Acquis

Legal gap analysis

Training programs for the other 21 river basins

| Number | Component | Deadline (in months) |
|--------|---|----------------------|
| 1 | Inception phase | 6 |
| 2 | Article 5 report | 25 |
| 3 | monitoring | 28 |
| 4 | River basin management plans | 34 |
| 5 | Water information systems | 33 |
| 6 | National implementation plan and training programme | 36 |

Project implementation unit

Team leader (Henk Sterk)

- Manages all relations with all stakeholders
- Is responsible for all products of the project
- Daily management of the project office

Key experts

- Support for the team leader
- Technical support on specific issues regarding their experience

Mr. Alfredo Corrochano Codorniu (environment and biology expert)

Mrs. Maria del Transito Sanchez Tamarit (Economics expert)

Teşekkürler

Gracias
